

# Oleksii Syrov

DEVOPS ENGINEER

## Details

Kyiv  
Ukraine  
+380680451051  
[lexxani42@gmail.com](mailto:lexxani42@gmail.com)

## Skills

Jenkins  
GitLab CI  
GitHub Actions  
Git  
Linux  
Python  
Azure  
AWS  
Docker  
Kubernetes  
Terraform  
Ansible  
Prometheus  
Grafana  
Redis  
PostgreSQL  
NGINX

## Profile

Dynamic DevOps Engineer with 3 years of experience, dedicated to enhancing operational efficiency and streamlining deployment processes. Expertise in developing robust CI/CD pipelines and implementing infrastructure as code using Terraform and Ansible, resulting in significant reductions in deployment times and manual tasks. Proficient in leveraging monitoring tools to improve system reliability and response times. Committed to fostering collaboration within teams and driving continuous improvement in development practices.

## Employment History

### Senior DevOps Engineer (part-time), Inc-Dev, Kyiv

DECEMBER 2024 – PRESENT

- Developed a comprehensive development framework, enhancing process efficiency by over 30%.
- Designed a custom GitLab CI pipeline for seamless builds and deployments of NodeJS applications to k3s clusters.
- Implemented infrastructure deployment using Terraform on Vultr, optimizing resource allocation and management.
- Established secure communication through WireGuard VPN on MikroTik, integrating with UniFi routers for secure access points.
- Migrated domains to CloudFlare, significantly boosting DDoS protection and enabling SSL/TLS connections.
- Deployed entire development environment for set of projects using ProxmoxVM, established connection to this environment using Tailscale mesh VPN

### DevOps Engineer, Gunzilla Games, Kyiv

AUGUST 2023 – JULY 2025

- Developed Terraform projects for seamless deployment across Azure environments, decreasing new environment deployment time by 70%.
- Created service pipelines that reduced manual QA tasks by over 50%.
- Configured monitoring and alerting systems, enhancing infrastructure issue response time by 50%.
- Automated deployment processes with Ansible playbooks, cutting new Windows machine deployment time by 90%.
- Implemented continuous integration practices, streamlining code deployment and improving team collaboration.

### DevOps Engineer, GlobalLogic, Kyiv

JANUARY 2022 – AUGUST 2023

- Migrated Jenkins pipelines to QuickBuild, enhancing CI/CD processes.
- Configured master/replica architecture in Gerrit, ensuring high availability.
- Developed Python daemons for seamless integration between Gerrit and Jira, validating commit messages.
- Established comprehensive monitoring for infrastructure performance, enabling developers to identify codebase weaknesses.
- Automated error parsing for autotests, reducing time to detect issues by 70%.

# Education

**Bachelor, National Technical University of Ukraine 'Kyiv Polytechnic Institute', Kyiv**

SEPTEMBER 2020 – JULY 2024

Material Science

**Master, National Technical University of Ukraine 'Kyiv Polytechnic Institute', Kyiv**

SEPTEMBER 2024 – JANUARY 2026
